China

Dear Letian:

The Mechanical Engineering Graduate Admissions Committee at Stanford University has conducted a thorough review of your application. I regret to inform you that you have not been granted admission. Our applicant pool was the most competitive we have seen in recent years, and the number of applicants greatly exceeded the number of available openings.

It is unfortunate that we are unable to accept all of the exceptional students who apply to our department. The process of selection is difficult and painstaking and many strong candidates must be turned away each year. Be assured, however, that decisions are made with conscientious care by responsible and knowledgeable experts in the field.

We wish you the best of luck in your future endeavors.

Sincerely,

Dacien Sims
Graduate Admissions Officer
Mechanical Engineering Department
Stanford University
